

YUBA COUNTY DEPARTMENT OF AGRICULTURE

cyhalofop butyl Permit Conditions

General Conditions:

- A permit must be obtained from the County Agricultural Commissioner for any use of **cyhalofop butyl (Clincher® CA)** in Yuba County.
- A 48 hour Notice of Intent must be filed with the Yuba County Department of Agriculture prior to the application of cyhalofop butyl.
- Only Adjuvants approved by DowAgro Sciences may be used with cyhalofop butyl. These are identified as follows: Agri-Dex, IAP Pro COC, PHT COC and Mor-Act.
- All Requirements of the Food and Agricultural Code and Title 3, California Code of Regulations that apply to the use of restricted materials shall apply to the use of cyhalofop butyl under permit in Yuba County.

Aerial Application:

- **Aerial applications of cyhalofop butyl (Clincher® CA) are PROHIBITED in Yuba County.**

Ground Application:

- All Pest Control Operators (PCO's) and Certified Private Applicator's using ground application equipment must attend a cyhalofop butyl stewardship training program, such as the program provided by Dow Agro Sciences for Clincher® CA, prior to any application of cyhalofop butyl.
- Do not apply cyhalofop butyl when wind speeds are greater than 10 mph measured at four (4) feet above the crop.
- The following Distance Restrictions are required between sensitive crops and rice fields to be treated with cyhalofop butyl:
 - Within 660 feet of peaches and nectarine – **no application.**
 - At least 660 feet away from, and up to 1320 feet of peaches and nectarines – **Apply with wind away**
 - More than 1320 feet away from peaches and nectarines – **no wind directional restrictions.**
 - Within 50 feet of non-target cereal and grass crops such as corn, sugar cane, sudangrass, sorghum, grass grown for seed, and sod farms – **no application.**
- Follow label requirements for ground application equipment specifications.
