Yuba County Board of Supervisors
District Priorities Fund
Application/Agreement

Each member of the Board of Supervisors ("Board") has an approved District Priorities Funds (DPF) allocation to be spent in the current fiscal year. DPF funds are intended to augment the efforts of community organizations, non-profits, county departments, and government agencies to benefit residents, neighborhoods and communities in Yuba County. All awards must be approved by a majority vote of the Board in a public meeting. All funds awarded must serve a public purpose. This application is for public or private community groups and non-profit agencies located in or providing services within the County. Please complete all sections of this form and submit it to your District Supervisor's Office. Districts may establish application requirements, submittal deadlines and require additional information.

DPF are governed by the attached District Priorities Fund Policy.

2. Project Details – Attachment

Oral health is a fundamental component of overall health and well-being. In early childhood, it plays a critical role in development, nutrition, speech, and long-term health outcomes. Establishing healthy teeth and gums during the first five years enables children to eat, speak, and learn effectively, while laying the foundation for lifelong oral hygiene habits.

This initiative leverages a unique partnership among Marysville Joint Unified School District (MJUSD), Peach Tree Health, and First 5 Yuba to deliver comprehensive dental services directly on elementary school campuses. By bringing services to school sites, the program eliminates transportation barriers and ensures a coordinated approach to reaching Yuba County's most at-risk children. The mobile model is especially critical in serving low-income, rural, and geographically isolated areas of Yuba County, where access to pediatric dental care is very limited. By traveling directly to these underserved communities, the program helps bridge gaps in care and ensures equitable access to essential services for vulnerable and hard-to-reach families.

After more than twenty years of service as Yuba County's only pediatric Denti-Cal provider, maintaining and upgrading the mobile clinic is essential to ensuring uninterrupted access to care for the community's youngest and most vulnerable children. As a high-utilization vehicle operating across diverse and often rural areas, the clinic requires ongoing investment to remain fully functional, safe, and compliant with health and safety standards.

Requested funding will support:

- General maintenance and minor repairs, such as mechanical upkeep, and interior improvements, to preserve the integrity and reliability of the unit. These investments will help prevent service disruptions, extend the lifespan of the mobile clinic, and ensure that children and families continue to receive high-quality care in a safe, welcoming, and dependable environment.
- Investments in enhanced marketing strategies, including radio, social media, print materials, and a newly wrapped mobile clinic, will increase program visibility across Yuba County, helping families better understand available services and how to access them. These efforts are especially important in reaching families who may otherwise remain disconnected from care.
- Through early intervention, outreach and education, children are introduced to best practices in oral care and provided with practical tools, such as toothbrushes, toothpaste, and floss, to reinforce these habits at home.

3. Community Impact

In alignment with First 5 Yuba's mission to enhance the development and well-being of children ages 0–5 and their families, this project aims to expand access to and promote oral health services through Yuba County's only pediatric Denti-Cal provider, the Happy Toothmobile. This project will significantly increase access to dental services and oral health assessments for underserved, rural, and low-income children ages 0–18 and their families. By reducing logistical barriers and bringing services directly into the community, the program improves early identification of dental needs and supports timely intervention.

Community outreach, targeted marketing, and vehicle enhancements will further support this work by increasing awareness, strengthening engagement, and ensuring dental services are delivered in a safe, welcoming, and sustainable environment. Strategic investments in minor vehicle repairs and improvements will ensure the clinic remains a safe, reliable, and welcoming space for children and families.

Overall, this project represents a strategic, collaborative effort to improve early childhood oral health outcomes in Yuba County. By investing in the mobile clinic infrastructure and sustainability combined with direct services, education, and outreach, the initiative addresses both immediate needs and long-term prevention, especially for children and particularly for children and families facing the greatest barriers to care.

MINUTE ORDER

YUBA COUNTY BOARD OF SUPERVISORS

MAY 12, 2026

257/2026 Board of Supervisors: Approve proposed distribution of District One (1) District Priority funds to Yuba County First Five Children and Families Commission in the amount of $10,000 from fiscal year 2025-26, and make the finding that it meets the social needs of the population of the County, promoting public health and oral health education of school children. This plays a critical role in development, nutrition, speech and long-term health outcomes, laying the foundation for lifelong oral hygiene habits and also provides a unique partnership among Marysville Joint Unified School District, Peach Tree Health to deliver comprehensive dental services directly on elementary school campuses. (Five minute estimate). Supervisor Vasquez provided a brief recap of the project.
