

United States Representative District 4

The following statement(s) may not include all candidates. Candidates have the option to prepare and pay for a statement to be printed in this voter guide. Statements are printed exactly as submitted. A complete list of candidates can be found on the sample ballot in this guide.

Name: Eric Jones

Age: 35

Occupation: Businessman/Nonprofit Executive

Politicians from the Washington establishment and Sacramento machine aren't serving our families. After knocking on doors throughout Yuba County, I've learned this community has been disenfranchised, denied the representation it deserves.

Too many politicians only care about staying in power. We shouldn't be handing out lifetime participation trophies to career politicians who ignore our struggles.

I was raised by a nurse and an opioid-addicted disabled veteran. As a child, I became my father's caregiver, seeing how the healthcare and pharmaceutical industries crush families. It's why I built successful healthcare companies that expand access to care for families and seniors. It's why I started a local nonprofit to help struggling kids, families, and veterans.

Not a dime of corrupt cash from lobbyists for PG&E, Big Pharma, or the insurance industry will fund my campaign. We must overturn Citizens United and ban PACs. I will fight to enact term limits, end gerrymandering, and ban congressional stock trading – public servants shouldn't use their office to become megamillionaires.

I'll fight to balance the budget, go after corporate tax cheats, and eliminate federal income taxes on the first \$150,000 earned. I'll expand Medicare to cover vision, hearing, dental, and in-home senior care and make generic prescription drugs free for every American.

I'll fund water infrastructure, incentivize regenerative agriculture, and – by any means necessary – protect our family farms.

I'm not a career politician. I'm a business leader bringing new energy to deliver wins for American families – not for political parties.

Name: Mike Thompson

Occupation: Member of Congress

When I served in combat, we operated on one basic premise: leave no one behind. Now that I'm serving in Congress, this guides my decisions daily. Too many hard-working Californians are getting left behind while billionaires thrive. I was born, grew up and still live in our district and I will never stop fighting for working people.

I'm fighting the reckless tariffs that hurt local farmers and are driving up prices and standing up against forever wars that are costing lives. I'm a strong defender of the Affordable Care Act and will continue to work to lower prescription drug costs. I believe no elected official should be able to profit from being in office, which is why I don't own nor trade stocks and support a ban on Congressional stock trading.

Following our devastating wildfires, I worked to secure nearly \$100 million in federal funding to help our communities rebuild and \$500 million in tax relief for fire survivors. I secured hundreds of millions of dollars to prevent flooding, delivered emergency aid to local farmers and ranchers, and worked across the aisle to deliver millions to support peach farmers after the DelMonte bankruptcy.

I have recovered more than \$87 million from the federal government for constituents and will continue working to deliver veterans and seniors the benefits they earned.

I'm honored to be supported by small business owners, farmers, nurses, firefighters, teachers, veterans, and more. I respectfully ask for your vote. To learn more, visit: mikethompsonforcongress.com.
